

Chain Wheels

A simple and efficient means of valve operation from a lower level is provided by the use of chain wheels. They are fitted to the regular valve handwheels and are furnished complete with chain wheel and chain guide. When ordering, specify: a) chain wheel number, b) handwheel size, c) total feet of chain desired (2 X hanging length).

Number	Fits Handwheel Dia. (in.)	Chain Wheel Dia. (in.)	Weight (lbs.)
0	2-4	4	2
1	4 1/8-5 7/8	5 7/8	4
1 1/2	6-7 1/2	7 1/2	5
2	7 3/4-9	9	9
2 1/2	9 1/4 -12 1/2	12 1/2	14
3	12 3/4-15 1/2	15 1/2	19
3 1/2	15 3/4-19	19	25
4	19 1/4-22	22	37
4 1/2	22 1/4-26	26	46
5	26 1/4-30	30	60

Floor Stands

Floor Stands

Xanik floor stands are fabricated steel, and are designed and machined for accurate alignment. They are regularly furnished painted and are faced on bottom and drilled. Two heights, 20 and 32 inches, are available and can be furnished in indicating or non-indicating types. Spur and motor control floor stands can be furnished to meet special conditions.

When ordering please specify:

1. Complete valve data: figure number and valve size.
2. With or without indicator.
3. Dimension A, center of valve port to floor level.

Stem Extensions

When ordering Extension Stems Only

1. Complete valve data: figure number and valve size. Dimension from valve centerline to top of extension stem handwheel.
